Android

1. Installation

Connect 220VAC to the Input terminal.
Connect the Load to the Output terminal.

To avoid electric shock, please turn off the power before installing the device.

2. Configuration Mode

Press and hold the button on your device for 5 seconds.

Note: When the green light becomes steady, which indicates that it has entered pairing mode.

3. How to add VH-002

Log in to the "AlienCheck" app. Click on the "IoT" icon.

Note: Your smartphone or tablet needs to be connected to a 2.4GHz WiFi network.

Click on "+" to add new device.

Click on "New device".

Select "Smart Switch VH-002".

Choose your WiFi network and enter the password, and then click on "Next" button.

Press and hold the button on VH-002 for 5 seconds until the green LED turns on.

The "VP.Start Home" WiFi hotspot is connected.

After the pairing process is completed, start to control and enjoy.
