iOS

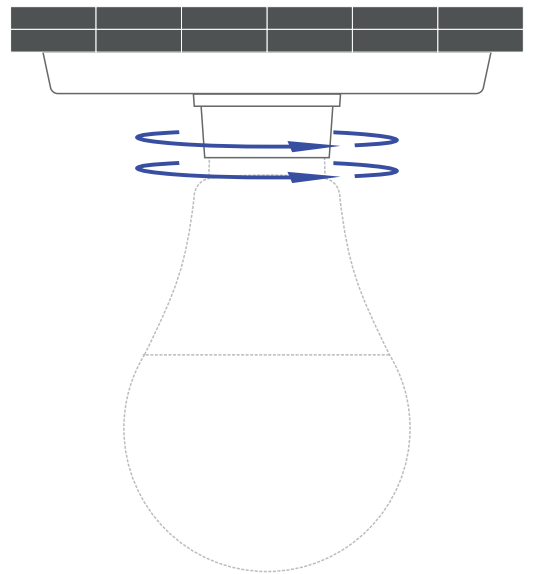

Android

## 1. Installation

Install VH-011-CW on the bulb holder.

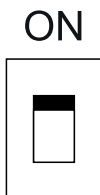

OFF

To avoid electric shock, please turn off the power before installing the device.

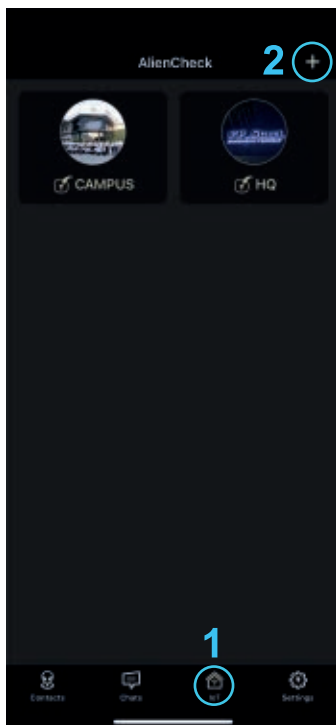

## 2. Configuration Mode

Turn on the power.

**Note:** The VH-011-CW will then flash up and down, indicating that the device is in Pairing Mode.

### 3. How to add VH-011-CW

Log in to the "AlienCheck" app. Click on the "IoT" icon, then click on the "Add" sign.

**Note:** Your smartphone or tablet needs to be connected to a 2.4GHz WiFi network.

Click on the "New device".

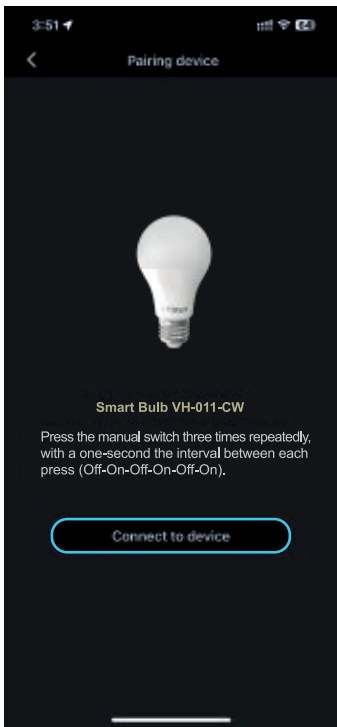

Select "Smart Bulb VH-011-CW".

Select your WiFi network, enter the password, and then choose the pairing type.

**Option 1: WiFi Pairing.** Click on "WiFi Pairing".

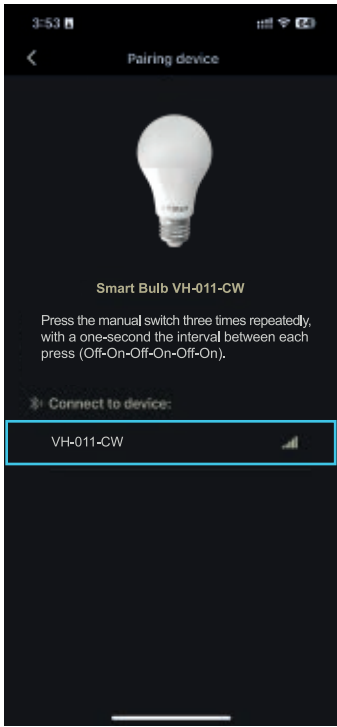

Click on "Connect to device".

**Option 2: Bluetooth Pairing.**  
Click on "Bluetooth Pairing".

Click on "VH-011-CW".

After the pairing process is completed, start to control and enjoy.
