

BE A VOICE, NOT AN ECHO

In a world full of noise, dare to think differently,
speak boldly, and lead authentically.

Why does the current generation of NUM students and alumni need to raise their voices, especially in terms of innovation through technology?

**To be brutally honest,
what damage accrues
from Cambodia having a weak voice
globally and geopolitically?**

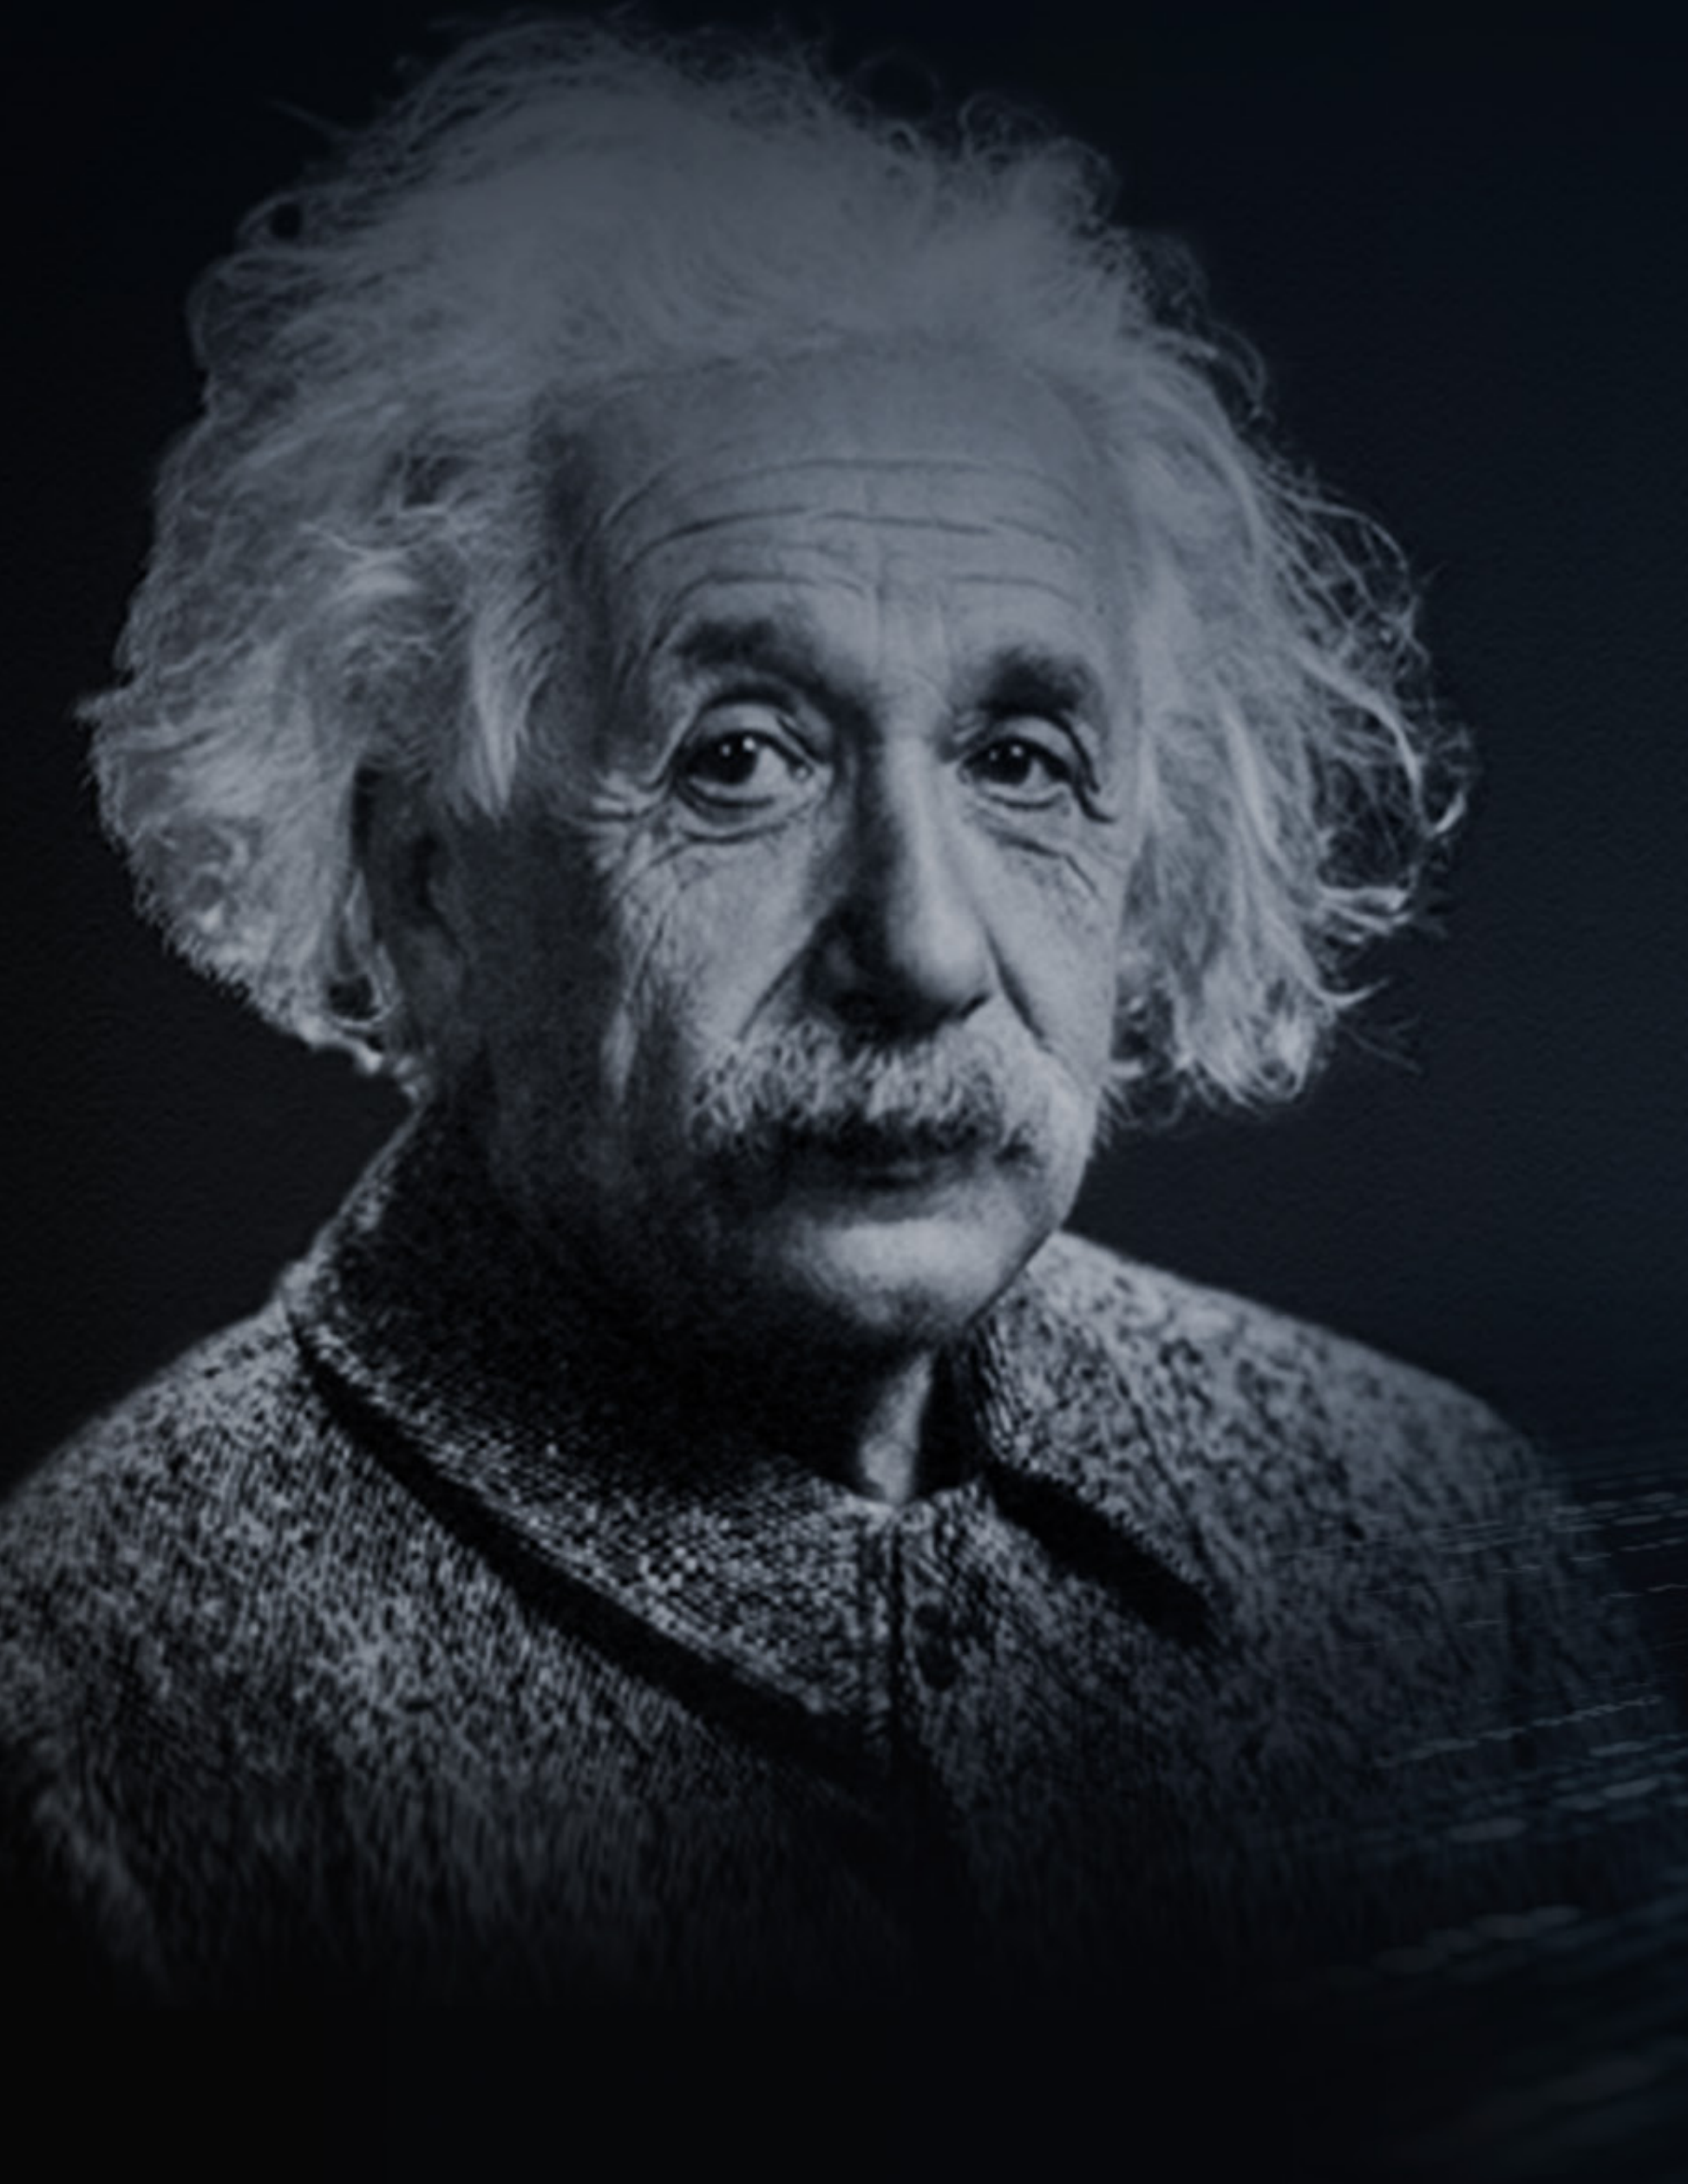

How can we forge a global voice that is
**powerful, passionate,
persuasive, positive
and particular?**

A person stands on a grassy hill under a starry night sky. A large, bright blue light beam originates from the horizon and spreads upwards, creating a dramatic effect. The scene is dark, with the light beam providing the primary illumination. The person is small in the frame, emphasizing the vastness of the sky and the intensity of the light.

Imagine that you have only 15 minutes
to talk to the world.

Einstein famously said:

“Be a voice, not an echo”?

Which one will you choose to be?
