

Phally,
CEO and Founder of VP.Start

Why is the sustainability system
of **VP.Start** a good fit for the
missions of the **Red Cross**?

Why do we need the ecosolutions
of **the SIMA Journey** to promote
better outcomes for vulnerable
and **impoverished communities?**

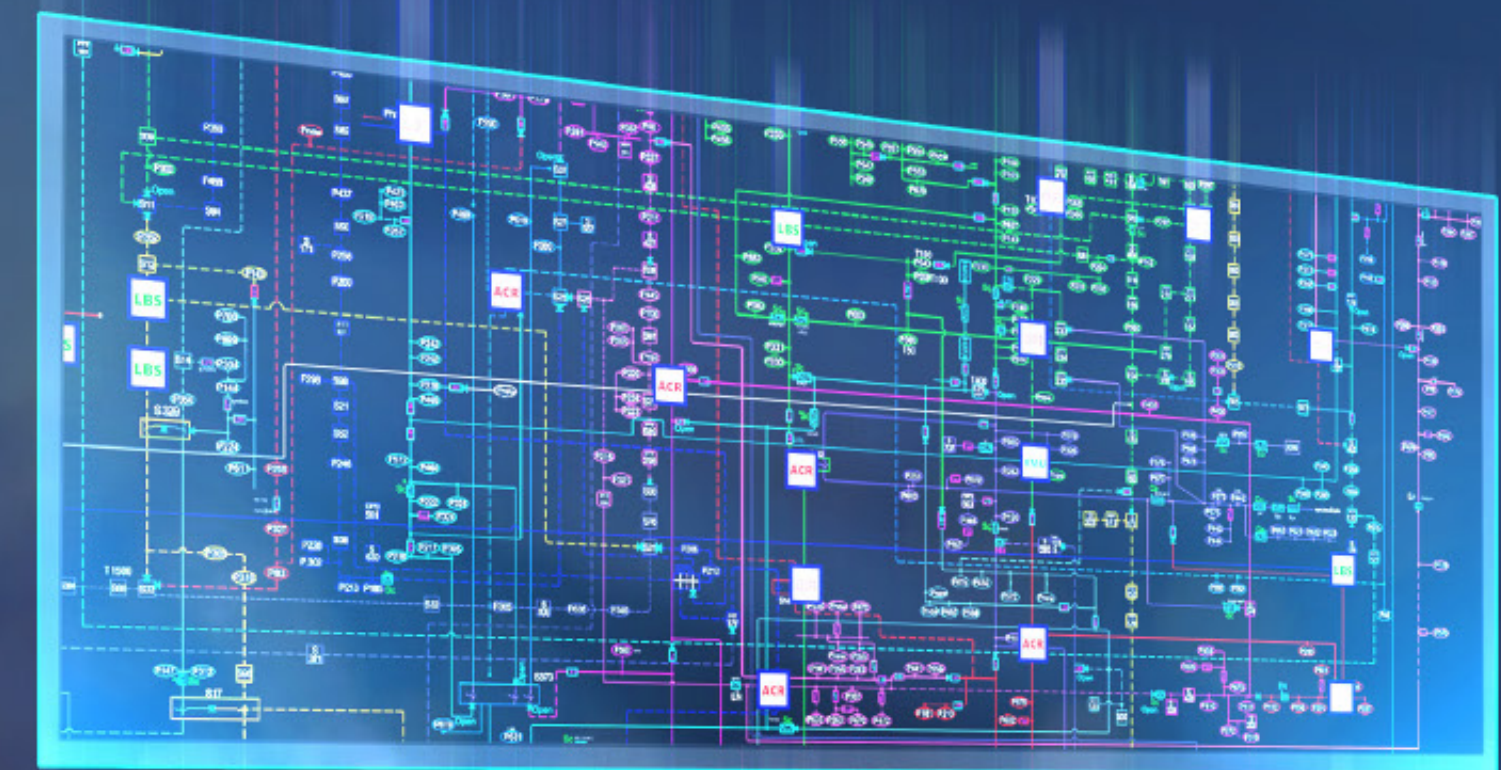

Why are urban **sustainability and rural electrification big challenges for the future of **Cambodia**?**

How do the **5 missions** of the SIMA Journey, and especially, the **SIMA Smart Grid**, promote a more affordable, reliable and sustainable future?

How does our data-driven resilient **SIMA Smart Grid** interface with **Red Cross** missions such as emergency response and climate change mitigation?

How can **VP.Start** work in conjunction with the Cambodian **Red Cross** and other stakeholders to forge a **greenable, sustainable future?**

The

SMAP
